Kundeshwar Temple brings out your spiritual side

Kundeshwar Temple, built around AD 1100 by the Yadava rulers, the exquisitely carved Kundeshwar Temple is a paragon of architectural excellence and is surrounded by coconut palm and mango plantations. The place is worth exploring and is a popular holiday destination.

Amboli: Situated 690 meters above sea level, this verdant hill station is a great summer retreat. Proudly referred to as the "Mineral Waterfall of the Konkan", Amboli draws visitors to its waterfalls (especially impressive during the monsoon period) and the sea-view point, which offers a panoramic view of the Konkan coastline. The neighbouring Mandargadh and Maneathanagadh forts are also worth visiting.
